

Bookmate

Milestone III

Chris Jung

Max Han

Sreedev Sidharthan

Maria A. Suhardi

3 Things We Have Done This Week

- search result filtering
- refine design
- populated database based on 3 core scenarios. Link the database to the website.

Compare to Previously Set Goals

Milestone III (May 26th): *Integrate additional functionality, evaluative testing and final front end design adjustments*

- Develop login system w/ hard coded user accounts (complete)
- Develop user profile and book listing page (complete)
- Complete high-fidelity prototype and do usability testing (complete)
- Develop dashboard reflecting both the 'buyer-view' and the 'seller-view' (complete)
- Develop email notification system

3 Things To Do in the Next Week

- Enable 'Sell a Book' functionality
- Seller dashboard organization
- Enable Messaging functionality
- Further design refinement
- Evaluative testing

3 Things We Are Blocked On

- Staying healthy - need to prioritize implementation items given time limit
- Not sure whether the status of book negotiations will be clear to users. Need evaluative testing to see if we got the design right.
